DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stanton Braden on 06/21/2006.

The application has been amended as follows:

In claim 15 delete the word "and" at the end of the 4th line

After the word "parameter", on the 5th line, insert a semi-colon (;)

After inserting the semi-colon after the word "parameter" delete everything that follows, and insert the following ---a transmitter for transmitting a status message, indicative of a hazard event, to a remote location; said processor being operable to receive a second message, including instructions for controlling the valve, in response to the status message, and sending a signal to the solenoid to control operation of the valve.---

Allowable Subject Matter

2. Claims 1-5, 8-12, and 15-18 are allowed.
3. The following is an examiner's statement of reasons for allowance: Prior art fails to teach or suggest a method or apparatus for controlling a valve located on a vehicle in response to a detected hazard event, wherein a status message indicating a hazard event is sent to a remote location from the vehicle, and in response the vehicle receives a second message which includes instructions for controlling a valve.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
